

# Cleveland Bariatric Mattress

Product Code: CLEV-142-2-ECO

The Cleveland Bari™ II is an advanced dual therapy system engineered specifically for the care of plus-size patients weighing up to 300 kg. It delivers critical pressure redistribution, which, when used in conjunction with clinical expertise, significantly improves patient outcomes and overall comfort. This cost-effective bariatric mattress is a versatile clinical tool, appropriate for use as a preventative device or for patients presenting with complex pressure wounds.

Its deep 10-inch / 215 mm transverse cell construction provides robust, reliable support. Designed for both home care and professional care home environments, the Cleveland Bari™ II features simple-to-use settings and intuitive functionality. This allows caregivers to set up and operate the mattress system quickly and efficiently, ensuring timely care delivery

## KEY FEATURES

**Bariatric Weight Capacity:** Safely supports plus-size patients with a maximum weight capacity (SWL) of 300 kg, providing a secure and effective therapy solution.

**10-Inch Deep Cell Construction:** Large 10-inch / 215 mm deep transverse cells made of durable Nylon PU provide robust support for the bariatric patient where it is most required.

**Advanced Infection Control Cover:** A water-resistant, multi-stretch cover with welded seams and antimicrobial coating provides robust defence against water ingress and aids infection control.

**Stable Transport Mode:** Allows the mattress to remain stable when activated, preventing unnecessary movement and patient discomfort, pain, or potential injury during transportation.

**Multi-Functional Digital Control Unit:** Enables a simple one-in-three cell alternating cycle, recognised as an effective pressure relief cycle for heavier clients, allowing for quick, easy setup.

**Dual Therapy Modes:** Offers an Alternating mode for dynamic pressure redistribution and a Static mode, creating a stable surface for nursing procedures or patient comfort.

**Rapid CPR Deflation:** Equipped with a CPR pull cord that aids in rapid deflation of the mattress, ensuring patient safety during medical emergencies.

**Two-Year Warranty:** This multi-featured system demonstrates excellent value for money and is backed by a comprehensive two-year warranty for peace of mind.

## SPECIFICATIONS

- **Length:** 200 cm
- **Width:** 120 cm
- **Depth:** 20 cm
- **Number of Cells:** 20
- **Alternating Cycle:** 1 in 2
- **Output Pressures:** 10-49 mmHG
- **Cycle Times (Minutes):** 6, 9, 12, 25
- **Therapy Modes:** Alternating, Static
- **Safe Working Load:** 300 kg
- **Risk Category:** Very High Risk
- **Warranty:** 2 Years
